## MERCHANTS OF TONOPAH TO HAVE CREDIT GUIDE

## SACRAMENTO COMPANY TO GIVE TONOPAH THE STANDING OF CUSTOMERS

The Merchants' Mercantile company of Sacramento is preparing to publish a credit guide for Tonopah, Goldfield and also embracing the majority of the counties of the northern and eastern part of the state. K. H. Sims, representing the company, is now in Tonopah conferring with the Merchants' association and has received the endorsement of that body.

Through the credit guide this city will be put in touch with credit conditions all over the United States, and whenever any person moves here from some other part of the country, the merchants will be posted through the company as to how the party in question paid his bills at his former place of residence.

The credit guides are made up in districts covering nearly every state in the union. They are made from the combined experiences of all the merchants in the districts. The merchants individually rate their own customers and when an application is made for credit, the customer is notified that he will be rated and an opportunity is allowed to settle outstanding bills before securing the rating.

The guide not only protects the merchants, but it allows a deserving person to secure credit when it is needed.
